		central government	state government	local government	social security funds
Total outstanding liabilities of government controlled entities classified outside the general government	3 738,12	3 290,46	-	447,66	-
of which:					
Liabilities of units involved in financial activities	282,19	282,19	-	0,00	-
Liabilities of units involved in other activities	3455,93	3008,28	-	447,66	-
of which: loss-making non-financial units	337,27	297,59	-	39,68	-

Notes to table:

Liabilities are defined as the stock of liabilities at the end of the year as reported in the individual financial statements of public corporations. The public corporations are defined as corporations with the ratio of public ownership of the capital 50 % and more. For the public corporations partially owned by the general government, only the part of liabilities corresponding to the government participation in the capital was taken into account. Public corporations classified in the general government sector were excluded from calculations.

For 2016, data was available for all 44 public corporations controlled by the central government. Data for corporations controlled by the local government was available for 406 corporations out of total 453 corporations.
